4. Furnace Size. Every model of furnace is made in different sizes to provide the proper amount of heat for the space it serves. Most models are available in sizes from about 40,000 Btu to about 120,000 Btu in increments of 10,000 to 20,000 Btu. 2020 Gas Furnace Prices By Leading Brands

[*INSTALLATION INSTALLATION AND OPERATING INSTRUCTIONS...*](#)

There's a saying in furnace circles that, "the most important day of a furnace's life is the day it is installed." Proper installation will allow the furnace to run as efficiently as it should and last as long as it should with proper maintenance and minor repairs. Bad installation leads to premature breakdowns. The furnace might also ...
